### SUMMARY

Passionate about building sleek, functional web applications that not only work but wow. I enjoy breaking down complex problems into simple, scalable solutions. With a strong focus on clean code and efficient development, I strive to create impactful digital experiences.

Currently pursuing a Bachelor's degree in Computer Engineering, I'm on a mission to master software development and use technology as a tool to solve real-world challenges. Eager to learn, grow, and stay ahead of the curve in this ever-evolving tech landscape.

---

### TECHNICAL SKILLS

- |                   |                 |          |
|-------------------|-----------------|----------|
| • Node JS         | • React JS      | • Django |
| • UI/UX Design    | • TypeScript    | • Python |
| • Java (Beginner) | • C Programming | • DBMS   |

---

### PROFESSIONAL EXPERIENCE

#### SDE Intern , EternIQ

Jan 2025 - Present

- Developed and maintained responsive web application using React and Node.js.
- Implemented reusable UI components with Tailwind CSS for consistent design.
- Collaborated with cross-functional teams to deliver features on time.
- Optimized client-side application performance resulting in 40% faster load times.

---

### PROJECTS

#### Coder's Hub : online community for Coder's Club (from my engineering college)

- A platform dedicated to provide comprehensive financial insights, cutting-edge market analysis, and expert advice to empower your journey in the dynamic world of stock markets.

#### FOMO - Fraud Observation & Monitoring Operations

- A system that actively observes, monitors, and flags suspicious or fraudulent activities in real-time, ensuring secure e-commerce transactions and account integrity.

---

### EDUCATION

#### Higher Secondary Education

Jun 2020 - Apr 2022

PACE Junior College of Science

- Completed my higher secondary education with specialization in Science and Mathematics.
- Successfully completed multiple programming certifications

#### Bachelor of Computer Engineering

Nov 2022 - Present

University of Mumbai

- Currently pursuing my Bachelor's in Computer Engineering with a focus on full-stack development, data structures, and algorithms.
