SUMMARY

Final-year Computer Engineering student with 12+ months of industry internship experience building production-grade systems used by real end-users. Comfortable across the entire stack: React frontends, FastAPI/Django/Node backends, MongoDB/MySQL datastores, hands-on exp on AWS and Docker-based deployments. Proven ability to independently architect features and collaborate with cross-functional product teams

PROFESSIONAL EXPERIENCE

Software Developer Engineer Intern , Druve Media Pvt Ltd (druvemedia.in) **Aug 2025 - Jan 2026**

- Architected and shipped a production-ready society management system from scratch, serving active residents across multiple housing societies with zero downtime at launch.
- Reduced average page load time by 35% by profiling and eliminating redundant API calls and implementing lazy-loading across dashboard views.
- Designed a reusable component library in React that cut frontend dev time for new features by roughly 40%, adopted across the engineering team.

Software Developer Engineer Intern , EternIQ Pvt Ltd (eterniq.in) **Jan 2025 - Jun 2025**

- Optimized client-side bundle and rendering pipeline of a React + Node.js web app, delivering a 40% reduction in load time (measured via Lighthouse) for a user base of 500+ active users.
- Built and shipped 6 end-to-end features in a cross-functional team of 4, maintaining 100% sprint delivery across a 5-month engagement.

PROJECTS

Coder's Hub : online community for Coder's Club (operational at my engineering college) codersclub.apsit.edu.in

- Designed and deployed a full-featured edutech platform (live at codersclub.apsit.edu.in) serving 600+ members with curated notes, newsletters, and project resources alongside event creation, registration, and attendance tracking.
- Built a participant demographics dashboard with real-time verification status, eliminating manual check-in sheets and cutting event admin overhead by an estimated 60%.

OverSightAI - Enterprise AI & DataGovernance Control Plane oversightai.in 

- Delivered a centralized governance dashboard giving enterprises real-time visibility into how AI agents consume organizational data, built on open-source tools (DataHub, Keycloak, Langfuse) with RBAC and audit-trail support.
- Reduced manual governance review effort by automating risk-scoring across agent interactions, enabling teams to flag policy violations without human triage for low-risk event

Chalo Kisaan (FastAPI, React Router, PWA, AWS) chalokisaan.in 

- Built and deployed an end-to-end AWS-hosted PWA for agritourism — EC2 for compute, S3 for media storage, RDS (PostgreSQL) for structured data, CloudFront as CDN, and Bedrock for integrating AI agents; integrated FastAPI backend with responsive React dashboards.
 - Achieved Lighthouse PWA score of 90+ enabling offline access and home-screen install, critical for low-connectivity rural users.
-

SKILLS

- Languages: Python, JavaScript, C/C++
- Frontend: React.js, React Native, Tailwind CSS, Figma (UI/UX)
- Backend & Databases: Django, FastAPI, MongoDB, Node.js, MySQL
- Data Analysis: MS Excel, PowerBI
- DevOps: AWS (EC2, S3, Bedrock, RDS, CloudFront, Amplify, IAM, Route 53), Docker, Kubernetes (basic), GitHub Actions
- Tools: Git/GitHub, VS Code, Postman,
- Soft Skills: Collaborative mindset, strong problem-solving capabilities & communication skills.

EDUCATION

Bachelor of Computer Engineering (CGPA - 7.52*/10)

2022 - 26

AP Shah Institute of Technology, University of Mumbai

LEADERSHIP & EXTRACURRICULARS

- Technical Co-Lead, OJUS – Radiance of Euphoria (APSIT cultural fest) — managed tech infrastructure for a 1,000+ attendee event.
 - Development Head, HackScript 4.0 — led engineering for an inter-college hackathon with 200+ participants; built judge portal and live leaderboard from scratch.
 - Design & Publicity Head, Coders Club (founding team) — co-founded club's online identity and grew member base to 300+ within first semester.
 - Organiser, DataWeb Hackathon — coordinated end-to-end logistics, sponsor communication, and participant onboarding for 150+ registrants.
-
